Subject Index for Volume 27

A

Allergic drug reactions, in home IV antibiotic therapy, 425
Allergy, latex, glove selection and, 227
Alteplase, for occluded central venous access devices, in pediatric patients, 171
Anaphylaxis kits, for home IV antibiotic therapy, 425
Anesthesia, local, for vein cannulation, 85
Antibiotic lock technique, 118
Anticoagulation
  heparin alternatives in, 413
  heparin-induced thrombocytopenia in, 413
Antimicrobial therapy
  optimal use of in critical care, 79
  outpatient parenteral
    allergic reactions in, 425
    practice guidelines for, 338
Antineoplastic therapy
  CRNI Exam review questions for, 13
  1- versus 3-hour paclitaxel infusion in, 251
Argatroban, 413

B

Bedside filtration, of leukocyte-reduced blood products, 157
Bivalirudin, 413
Blood products, leukocyte-reduced, bedside filtration of, 157
Brain tumors. *See also* Cancer
epidemiology, diagnosis and treatment of, 263
Budget management
opportunity-cost savings in, 251
resource consumption quantification in, nursing process model for, 232

C

Cancer
  brain, epidemiology, diagnosis and treatment of, 263
  chemotherapy for
    CRNI Exam review questions for, 13
    1- versus 3-hour paclitaxel infusion for, 251
Capped/capless valve systems, 245
Catheter(s)
  central venous. *See* Central venous catheters
  in home care, 399
  midline, 313
    in home care, 399
  peripheral intravenous
    insertion of, local anesthesia for, 85
    nursing management of, intervention study of, 322
Catheter-related complications, in home infusion therapy, 104
Catheter-related sepsis
  epidemic nosocomial, 175
  in home infusion therapy, 104
  prevention of
    antibiotic lock technique for, 118
    filtration for, 37
    impact of safety products on, 245
    no-dressing intervention for, 37
Catheter site dressings, as pathogen reservoir, 37
Central venous catheters
  antibiotic lock technique for, 118
  in home infusion therapy, outcomes with, 104
  no-dressing intervention for, 37
  occluded, alteplase for, in pediatric patients, 171
  peripherally inserted
    in acute care setting, outcome data for, 431
    in home infusion therapy, 399
    malposition of, persistent left superior vena cava and, 181
Cerebral metastases, epidemiology, diagnosis and treatment of, 263
Chemotherapy
  CRNI Exam review questions for, 13
  1- versus 3-hour paclitaxel infusion in, 251
Children
  occluded central venous access devices in, alteplase for, 171
  parenteral nutrition in, 166
Collaboration, strategic partnerships in, 297
Continuing education credits. *See also* CRNI Certification Examination
  tests for, 123, 410
Contrast media, 302
Cornstarch powder, in gloves, 227
Cost-to-outcome analysis, nursing process model for, 232
Critical care
  furosemide by continuous vs. intermittent bolus infusion in, 255
  optimal use of antimicrobials in, 79
CRNI Certification Examination, review questions for, 13, 73, 123, 149, 225, 290, 379, 410
Cross-national partnerships, 297
Cultural competence, 302
Cultural knowledge, 302
Cultural sensitivity, 302

D

Desirudin, 413
Distance learning, 297
Dressings, catheter site, as pathogen reservoir, 37
Drug-nutrient interactions, in parenteral nutrition, 19
Drug reactions
  allergic, in home IV antibiotic therapy, 425
  ocular toxicity in, 386
Dying patients, care of, infusion nurse's role in, 112

E

Editorials, 6, 66, 140, 201, 283, 373
End-of-life care, infusion nurse's role in, 112

Epidemic nosocomial bloodstream infections, incidence and nature of, 175
Evidence-based practice
assessment of safety of vinyl infusion care devices, 332
implementation of, 381
intervention study of nurse management of peripheral intravenous catheters, 322
Examination gloves, selection criteria for, 227
Eye, drug-induced toxic reactions in, 386

F

Filtration
bedside, of leukocyte-reduced blood products, 157
for IV fluids and point-of-use hospital water, 89
Fluid and electrolytes, CRNI Exam review questions for, 225
Fluid filters, 89
Fondaparinux, 413
Furosemide, continuous vs. intermittent bolus infusion of, 255

G

Glioma. *See also* Cancer
epidemiology, diagnosis and treatment of, 263
Gloves, selection criteria for, 227

H

Heparin-induced thrombocytopenia, 413
Heparin infusion, alternatives to, 413
Home infusion therapy
antimicrobial
allergic reactions to, 425
practice guidelines for, 338
catheter-related complications in, 104
midline catheters in, 399
peripherally inserted central venous catheters in, 104, 399
Hospice care, infusion nurse's role in, 112

I

ICU. *See* Intensive care unit
Infants
occluded central venous access devices in, alteplase for, 171
parenteral nutrition in, 166
Infection, catheter-related. *See* Catheter-related sepsis
Infection control
antibiotic lock technique in, 118
filtration in, 89
impact of safety products on, 245
no-dressing intervention in, 37
Infliximab infusion, quantification of resource utilization in, 232
Infusion Nurses Society
Chief Executive Officer's Report, 214
Past President's Address, 209
President's Address, 221
2003 Financial Report, 212
Infusion phlebitis, risk factors for, 25
Infusion therapy. *See also specific types*
instruction in, 151
resource consumption by, quantification of, 232
safety products for, 245
Intensive care unit
furosemide by continuous vs. intermittent bolus infusion in, 255
optimal use of antimicrobials in, 79
International partnerships, 297
Intravenous fluids, filters for, 89
Iodinated contrast media, 302

K

Kidney transplant, nutritional assessment and support for, 45

L

Latex allergy, glove selection and, 227
Lepirudin, 413
Leukocyte-reduced blood products, bedside filtration of, 157
Local anesthesia, for vein cannulation, 85

M

Macronutrients, in pediatric parenteral nutrition, 166
Medical device failure, Safe Medical Device Act and, 31
Metastases, cerebral, epidemiology, diagnosis and treatment of, 263
Micronutrients, in pediatric parenteral nutrition, 166
Midline catheters, 313
in home care, 399
Multiculturalism, strategic partnerships and, 302

N

Needleless infusion systems, infection control and, 245
Needlestick injuries, prevention of, 245
Nephropathy, contrast media–induced, 302
New products and services, 53, 129, 187, 271, 360, 437
No-dressing intervention, for catheter-site infection prevention, 37
Nosocomial bloodstream infections, epidemic, incidence and nature of, 175
Nursing education
distance learning in, 297
infusion therapy instruction in, 151
Nursing process model, for quantifying infusion therapy resource consumption, 232
Nutrients, in parenteral nutrition
in children, 166
drug interactions with, 19
Nutritional assessment, in renal transplantation, 45
Nutritional support. *See also specific methods*
CRNI Exam review questions for, 290
drug-nutrient interactions in, 19
pediatric, 166
in renal transplantation, 45

O

Ocular toxicity, 386
Opportunity-cost savings, 251
Outcome data, for peripherally inserted central venous catheters, in acute care setting, 431
Outpatient care
catheter-related complications in, 104
midline catheters in, 399
parenteral antibiotic therapy in
allergic reactions in, 425
practice guidelines for, 338
peripherally inserted central venous catheters in, 399

P

Paclitaxel, 1- versus 3-hour infusion of, 251
Pain management, for vein cannulation, 85
Palliative care, infusion nurse's role in, 112
Parenteral antimicrobial therapy, outpatient
allergic reactions in, 425
practice guidelines for, 338
Parenteral nutrition
CRNI Exam review questions for, 290
drug-nutrient interactions in, 19
pediatric, 166
in renal transplantation, 45
Partnerships, cross-national, 297
Pediatric patients
occluded central venous access devices in, alteplase for, 171
parenteral nutrition in, 166
Pediatrics, CRNI Certification Exam review questions for, 149
Performance improvement, CRNI Exam review questions for, 379
Peripheral intravenous catheters
insertion of, local anesthesia for, 85
nursing management of, intervention study of, 322
Peripherally inserted central venous catheters
in acute care setting, outcome data for, 431
in home care, 399
persistent left superior vena cava and, 181
Persistent left superior vena cava, peripherally inserted central venous catheter malposition and, 181
Phlebitis, infusion, risk factors for, 25
Point-of-use hospital water filtration, 89
Powdered gloves, 227
Product safety, vinyl infusion care devices and, 332

R

Radiographic contrast media, 302
Renal transplant, nutritional assessment and support in, 45
Resource consumption, by infusion therapy, quantification of, 232

S

Safe Medical Device Act, 31
Safety, of vinyl infusion care devices, 332
Sepsis, catheter-related. *See* Catheter-related sepsis
Sharps with engineered sharps injury protection, 245
Strategic partnerships, 297
Surgical gloves, selection criteria for, 227
Sweden, nurses' perception of risk factors for infusion phlebitis in, 25

T

Tap water, filters for, 89
Technology and clinical applications, CRNI Certification Exam review questions for, 13, 73
Terminal care, infusion nurse's role in, 112
Thrombocytopenia, heparin-induced, 413
Thrombophlebitis, infusion, risk factors for, 25
Total parenteral nutrition. *See also* Nutritional support
CRNI Exam review questions for, 290
Training, in infusion therapy, 151
Transfusions, bedside filtration of leukocyte-reduced blood products in, 157
Transplantation, renal, nutritional assessment and support in, 45

V

Valve systems, capped/capless, 245
Vein cannulation, local anesthesia for, 85
Vena cava, persistent left superior, peripherally inserted central venous catheter malposition and, 181
Vinyl infusion care devices, safety of, 332
Virtual reality, in infusion therapy instruction, 151

W

Water, point-of-use, filters for, 89

X

Ximelagatran, 413
